

DECO CREATE APPLICATION

	<p><u>STEP 1:</u></p> <p>Mix the ready to made plaster Deco Create with 5 lt ($\pm 0,500$ Kg) fresh and clean water .</p>
	<p><u>STEP 2:</u></p> <p>Deco Create should be as thick as shown in the picture.</p>
	<p><u>STEP 3:</u></p> <p>Spread the surface, where you will apply Deco Create, with Style Contact.</p>
	<p><u>STEP 4:</u></p> <p>Apply the first coat Deco Create (1-2mm) and right after that continue with STEP 5. First and second coat should be applied wet to wet.</p>

STEP 5:

Apply the second coat Deco Create (1-5 cm), depending on the pattern of the stamp you have choose.

STEP 6:

Make the surface smooth.

STEP 7:

Check the difference in thickness between first and second coat.

STEP 8:

Apply Style Liquid Release on the stamp, using a brush.

STEP 9:

Start stamping the plaster.

STEP 10:

Continue stamping, covering all the surface.

STEP 11:

Continue stamping, covering all the surface

STEP 12:

The second day Deco Create is still soft and you can correct some details using Deco Create Tools.

STEP 13:

The third day you can start coloring using Decochrom, which is in 8 basic colors that you can mix. Try to begin with light colors and small quantities.

STEP 14:

You can use sponges to spread the colors on the surface.

STEP 15:

It can be used a brush to painted joints, if it is not implemented from the beginning colored plaster Deco Create.

STEP 16:

A clean sponge can be used to remove the paint that has come off plaster's joints.

STEP 17:

This is the final result of stamped wall Deco Create. You can change the color if after some years you don't like it.
